Client:

Civil Aviation Authority

Mechanical & Electrical maintenance for CAA House, London & Aviation House, Gatwick utilising. The Gatwick building comprises a 5 storey office block build in the early 1980s. The building utilises a VAV system with roof mounted chillers. Commtech maintains all plant including lifts, lighting, lightening protection, fire alarms, tanoy systems, car park lighting, refrigerant systems and water treatment. We have also been involved in capital plant replacement, including replacement of all the Chillers on the CAA House in London, replacement LV panels to the offices in Gatwick, new comms rooms including fabric, cooling and UPS systems.
